ADVISORY

To,

All Private Satellite TV Channels

Subject: Advisory to prominently display the source
"Courtesy: Sansad TV". - reg.

Sansad TV provides the live and primary television coverage of the proceedings of the Rajya Sabha and Lok Sabha, besides producing a wide range of programmes, discussions, interviews, documentaries and other content relating to Parliament and current affairs. The proceedings and programmes of Sansad TV are also extensively used, reproduced, excerpted and incorporated by various private satellite television channels. It has, however, been observed that source of such footage is not consistently acknowledged by the channels while using or sharing the content.

2. In this regard, all Private Satellite TV Channels are advised to prominently display the caption **"Courtesy: Sansad TV"** whenever they telecast, reproduce, share or incorporate the proceedings of either House of the Parliament or any programme/content produced or supplied by Sansad TV. Such a uniform attribution would bring greater clarity regarding the source of parliamentary footage and programmes being used

across television platforms.

3. This issues with the approval of the Competent Authority.
